Reconciliation Match
Target

Prepared by Faith Mwendwa Nkonge | Data Migration Project Manager (Illustrative Role)

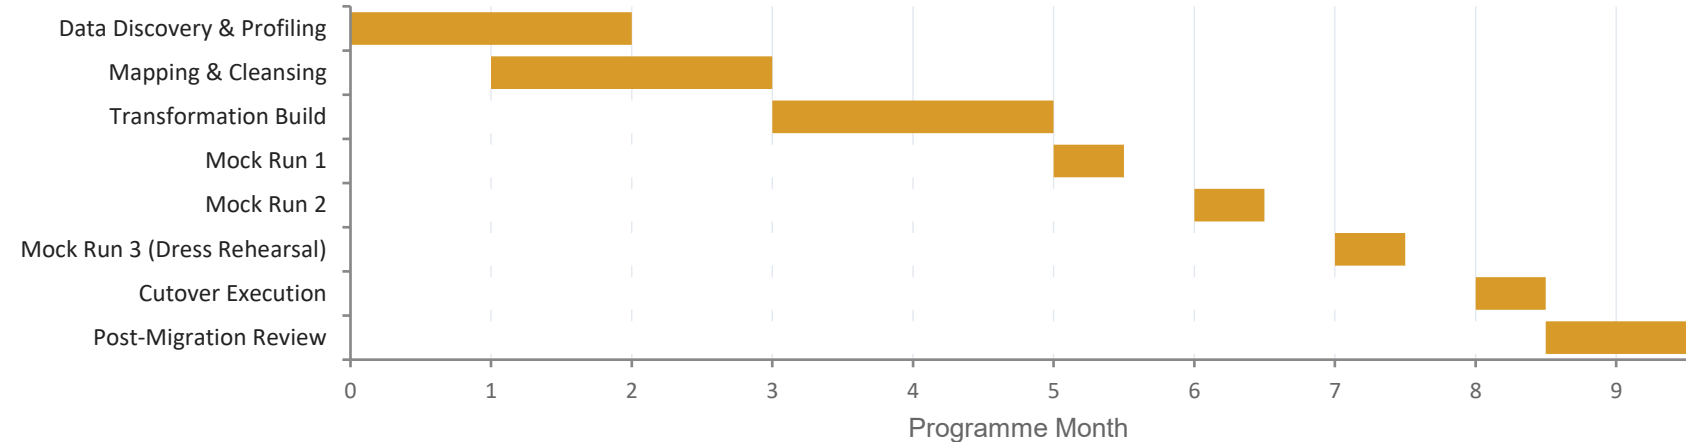

Zawadi Bank Plc, Project Amani, and all figures are fictional constructs created for professional portfolio purposes only.

Approach: Data Migration Lifecycle & Delivery Timeline

Project controls · Data mapping techniques · Agile sprint cycles for cleansing & mapping work

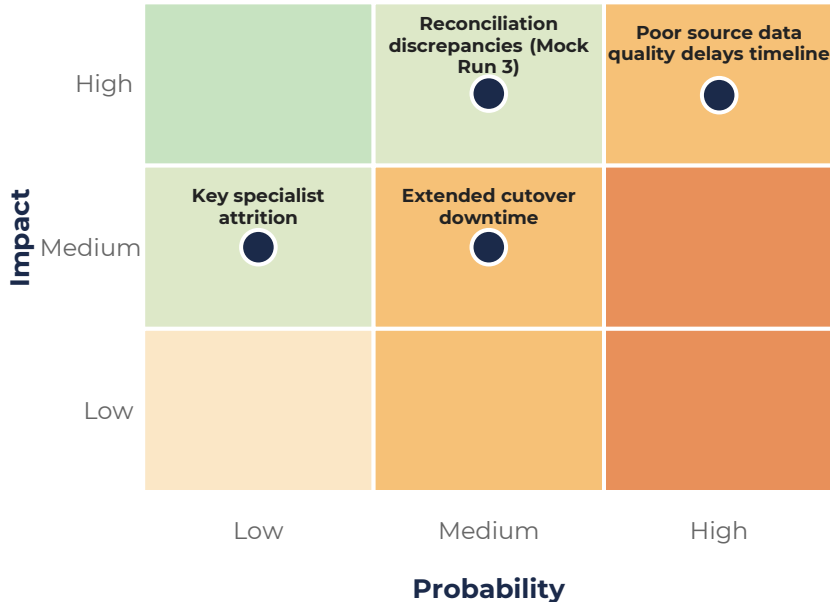

8-stage lifecycle applied to all in-scope customer, account, and transaction data

Risk Management & Benefits Realisation

Risk Probability – Impact Matrix

Benefits Realisation

\$640K

Projected annual saving in legacy maintenance costs from Year 1

420 hrs

Manual reconciliation effort reclaimed per month

- Regulatory reporting compliance readiness ahead of the Central Bank of Kenya's real-time reporting directive
- Improved data quality baseline supporting future analytics and product personalisation
- Stakeholder engagement planned via a Power-Interest grid, prioritising the Steering Committee and Data Migration PM for close management
